June 30, 2020

Dear Pastor and Church friends,

We are certainly ministering in interesting times. In our **US** ministry our **Iglesia Bautista Comunidad** church services were able to resume the first of this month. We have not fully recovered those who had started coming we we launched this ministry on February 2. One family had to return to their home in Puerto Rico and another family is dealing with an at risk child who has leukemia so they are understandably fearful to congregate presently. Otherwise with this ministry we have built quite a following by way of our FaceBook / YouTube services that we present each Sunday and Wednesday. We have heard from many in our area, also across the US and numerous countries where they speak Spanish. Some of our own churches in Guatemala and Cuba are regularly using our videos for their own families while churches remain closed.

In **Haiti** we are blessed to continue the ministries of our orphan homes. The children have been doing their school work and having their church services right in the homes. In our newest home, **Carelink Kids home** in Blanchard their water well that was close to their home ran dry and they are having to carry water from quite a ways off. We are in the process of raising some funds to get another well in and a pump to bring water into the house. If you can help it would be a blessing.

In **Guatemala** we are looking into two new projects that we hope to make part of our endeavor there. One is working with some pastors in the capital area who want to do church planting. It is such a needy area. Nearly a million souls. Also we have a Television ministry project on the table to see if we can get something on air. There is no other ministry like this in Guatemala that would be faithful to the Bible. It is expensive, about \$2000 per month but its outreach would cover

the capital and 5 other municipalities 24 hours a day with sound ministry. Please pray for these.

Of course our other ministries in **Guatemala** and **Cuba** are still under lockdown. Presently they cannot even go out of the house for 24 hours on Sundays. The other days hours are limited too and only for necessities. We have had to cancel 2 summer mission trips so far and still do not have an opening date for flights into the country. Our pastors have remained faithful trying to continue with small home Bible Studies and visits to stay in contact. Our churches in **Mexico** have not had to close but ministry has been hindered there with the Covid 19 as well. In Frontera Comalapa area our services have continued and we have launched out to purchase land there. We hope to pay the land off this month. If you would like to help with an offering it would be greatly appreciated. Please pray as now we want to begin to build on the land soon. All the best, **Ron & Frances**
